

MIXING PROGRAMME FOR PROCESSING

Note: The above mentioned data is based on apparent of 0.5 kg/ltr. Inclusive of additives and final temperature 120° C of High Speed Mixer and 45° C of Cooling Mixer.

MIXING TOOLS & ACCESSORIES

JOGINDRA ENGINEERING WORKS (P) LTD.

An ISO 9001-2008 Certified Company

Corporate Office :

525-526, 5th Floor, Star Tower, Sector-30,
Gurgaon, Haryana 121 001 (INDIA)
Tel. : 0124 400 7660, 4110 119, 4111 019,
4013 047
e-mail : info@jogindra.com

Works :

A-586, Phase - I, RIICO Industrial Area,
Bhiwadi, Distt. Alwar, Rajasthan,
Tel. : 01493- 511774, 511773,
e-mail : info@jogindra.com

JOGINDRA

Your partner in mixing Since 1959

MIXERS | PLANTS | SYSTEMS

A TRUSTED NAME WORLDWIDE FOR QUALITY

Serving Plastic Industry since 1959.

Product Range

About the Company

- An ISO 9001:2008 certified company and complying with the CE standards.
- Leading manufacturer of machineries for plastic processing, paint and wood plastic composite industry.
- Highly sophisticated manufacturing facility and managed by highly qualified technical people.
- Use of quality raw materials to deliver quality products and we can proudly say-

'A TRUSTED NAME WORLDWIDE FOR QUALITY'

- Our continuous R & D, strict quality control has resulted in the development and production of new generation machines.
- Associated with prestigious trade organizations such as AIPMA, IPF, OPPI, Indo German Chamber of Commerce, SPI, USA, FICCI & EEPC and more.
- Almost 90% of plastic processing industry as of today is being served by JOGINDRA.
- Delivering our best to our customers for more than four decades.

[Our Moto is satisfaction of our customers.]

Jogindra Advantages:

- High Productivity
- Long life and durability
- Low maintenance, trouble free service
- Labour and Energy saving

HEATING COOLING MIXER - VERTICAL (JHC)

Vertical tank in stainless steel with jacket for cooling water circulation. The special construction of the tank allows quick cleaning with frequent color change. Ideal for cooling plasticized and rigid PVC compound.

CAPACITY: 5-1000 kg/ batch

HEATING COOLING MIXER - HORIZONTAL (JHCH)

Horizontal tank in stainless steel with jacket for cooling water circulation reduces cooling time. The special shape of the mixing blades are easy to clean. Ideal for cooling Plasticized and rigid PVC compound.

CAPACITY: 5-1000 kg/ batch

CONTAINER MIXER (JCM/ JCMH)

Jogindra Container Mixer is specially designed for cold / hot mixing process for all polymer powders or granules with colorants and additives for concentrated masterbatches.

CAPACITY: 25-550 kg/ batch

RIBBON BLENDER (JJR)

Jogindra Ribbon Blender is suited for PVC dry blends. It is specially designed for those compounds which require higher ratio of plasticization such as use in footwear, pipes, cables etc.

CAPACITY: 10-3000 kg/ batch

HIGH SPEED MIXER (JJH)

Vertical tank in stainless steel with jacket for extra heating or cooling by means of heat transfer oil, steam or water as required. The material gets mixed by utilization of frictional heat and special design of blades to give homogenous result.

CAPACITY: 5-1000 kg/ batch

COOLING MIXER (JCH/JJC)

Jogindra Cooling Mixers are suitable for quick cooling of directly transferred dry blends from High Speed Mixer.

CAPACITY: 5-1000 kg/ batch

CONVEYING SYSTEMS (JCS)

Use of this system is recommended in case of continuous compounding for small to medium volume production, thereby minimizing production costs.

CAPACITY: 5-1000 kg/ batch

LAB MIXER

CAPACITY: Upto 20 kg/ batch

SCRAP GRINDER (JEG)

CAPACITY: Upto 800 kg/ hr

PULVERIZER (JPZ)

CAPACITY: 80-200 kg/ hr

FOUR SHAFT SHREDDER (JFS)

CAPACITY: Upto 2000 kg/ hr

SINGLE SHAFT SHREDDER (JSS)

CAPACITY: Upto 2000 kg/ hr
