## SCRAP GRANULATOR (JEG)

A TRUSTED NAME WORLDWIDE FOR QUALITY

JOGINDRA, with more than 40 years of experience, is one of the leading manufacturers of high quality Granulators. Our product range begins with the small Scrap Granulators and reaches the high performance Granulators, including special machines such as Single Shaft Shredder for heavy plastic lumps or the Pulverized Systems for fine grinding applications. Using drive motors ranging from 2.2 KW to 200 KW, JOGINDRA machines cover the complete spectrum of plastics size reduction applications.

The **JEG series** is based on the latest machines designed and perfected throughout the years. They can be implicated for almost all applications of plastics granulation. All machines in the **JEG** range produce a high quality granulate for injection moulded articles, spurs, pipes, profiles, sheets, film or start-up and head waste lump. The machines are economical, reliable, easy to clean and have a long service life.

**JOGINDRA can also offer a wide range of necessary ancillaries such as Blowers, Suction Systems, Metal Detectors, Fines Separators, etc.**

## Technical Data JEG Series

Type JEG	1515	2025	2525	4025	4525	5025	6025	6625
Number of Rotor Knives	3	3	3	3	3	3	3	3
Number of Stator Knives	2	2	2	2	2	2	2	2
Width of Blades (mm)	152	200	250	406	457	508	610	660
Rotor Diameter (mm)	150	250	250	250	250	250	250	250
Capacity (kg/hr)	10-20	20-40	40-80	120-150	120-200	200-240	220-280	240-310
Drive Capacity (kw)	1.5	3.72	5.6	9.4	11	15	18.5	22.3

\* Capacity depending on screen size & material

## Features and Advantages:

- Cutting chamber wear plates are standard
- Outboard Rotor Bearings
- Easy opening Screen Cradle
- Reversible screen
- Opening of Upper Cutting Chamber
- Scissor cut
- Low Running Cost
- High Output
- Easy replacement and adjustment of cutting knives

**JOGINDRA ENGINEERING WORKS (P) LTD.**  
An ISO 9001-2008 Certified Company
